

MZUMBE UNIVERSITY

FACULTY OF SCIENCE AND TECHNOLOGY

(FST)

COURSE NAME: ADVANCED DATABASE MANAGEMENT SYSTEMS & IMPLEMENTATION

PROGRAM: BSc ICTB-3

COURSE CODE: CSS 321

LECTURER NAME: Dr. CHURI

NATURE OF TASK: GROUP ASSIGNMENT

DATE TO SUBMISSION: 30/04/2024

GROUP NUMBER: 04

PARTICIPANTS

S/N	STUDENT NAME	REGISTRATION NUMBER
1	HARUN NSUNGI	14323035/T.21
2	JOHNSON LEONARD	14323021/T.21
3	RACHEL RENETUS	14323018/T.21
4	GLORIA SILIBWA	14323038/T.21
5	ABDULKALIM MAUNDU	14323014/T.21
6	SAIDY KARIM	14323002/T.21

Question

Develop a simple web application using HTML (for interface implementation), MySQL (for database implementation), JSP (for web scripting) and any other related technologies for handling student academic information. The application should enable users to query for students who got a specified for example grade, sex, program of study. Also the program should enable user to enter or make changes to marks of a given student. Use relevant dummy data for demo. Additional related functionality to the application will add more credits. This is a group work (6 students each) and deadline for submission (a report and program) is by 30th April 2024.
